## Summary

I'm a highly organised and focused driven creative person who loves to do all sorts of creative things with experiences from internships and work experiences. I have a bachelor's degree in digital media.

## Work Experiences

### Intern Project Assistant / Concept Artist at Kashmir World Foundation

Feb 2022 – Jun 2022

- Internship / Volunteering with KWF to create an educational animated story. Intern during the Pre-production stage of the project so focusing on the storyboard, Concept Art and Character Design.

#### Key Responsibilities

- Concept Artist / Character Designer - Coming up with a specific Art style to use for the project and creating the design for the Character
- Project Assistant – Taking down notes from the meeting and organising documents.

#### Achievements

- Created a couple of designs of the character that will be used for the final animation when the project is completed.

### Podcast Producer / Editor - University Client Project Experiences at NowUC

Aug 2021 – Nov 2021

For one of the Units that I undertook at university was to work on a real-world project. I was assigned to a group, where our client was based at the University, and we were tasked to create one short podcast for the University's Online publication (NowUC).

#### Key Responsibilities

- Audio Engineer – Looking after most of the audio aspects of the Project. Recording and editing it to make the podcast episode.

#### Achievements

- Completed the episode of the Podcast. Learnt more about audio recording and editing.
